Healing Essence

REveal a more luminous, translucent-looking skin with this innovative skin rejuvenation treatment made with 2% Hydrolyzed DNA (PN) using the latest DOT™ technology. This potent formula helps support natural cell regeneration, promotes collagen production, smooths the appearance of fine lines and wrinkles, reduces the look of hyperpigmentation, and rehydrates skin.

4 mL (2 mL x 2) / 0.13 fl oz

Skin Booster

This potent formula features Rejuran powerhouse ingredient, 1% Hydrolyzed DNA (PDRN), paired with a high-concentration of moisturizing Hyaluronic Acid and four types of Amino Acids. This unique cocktail provides the necessary ingredients to create the optimal conditions for collagen production within the skin. Collagen, which makes up 80% of the dermal layer, helps skin appear fuller, plumper, and more elastic.

Vial I 1% PDRN+HA solution, 2 mL x 3
Vial II Amino Acid solution, 2 mL x 3

Trueskin Essence

This clinically proven product penetrates the upper layer of the epidermis to deliver the active 1.5% Hydrolyzed DNA (PDRN), deep into the skin. The marine-based, DNA active interacts directly with cells to support a plumper, smoother, more REjuvenated look. It supports skin's natural production of collagen, which smooths the appearance of lines & wrinkles for a more youthful, radiant complexion.

4 mL (2 mL x 2) / 0.13 fl oz

Tone-Up Booster

Brighten and revive skin with this innovative, two-part mesotherapy solution that improves skin tone and supports natural collagen production. Formulated with a powerful cocktail of clinically-proven active ingredients, 1% Hydrolyzed DNA (PDRN), this dual-action treatment simultaneously evens skin coloration and rejuvenates dry, dull skin from the inside out.
